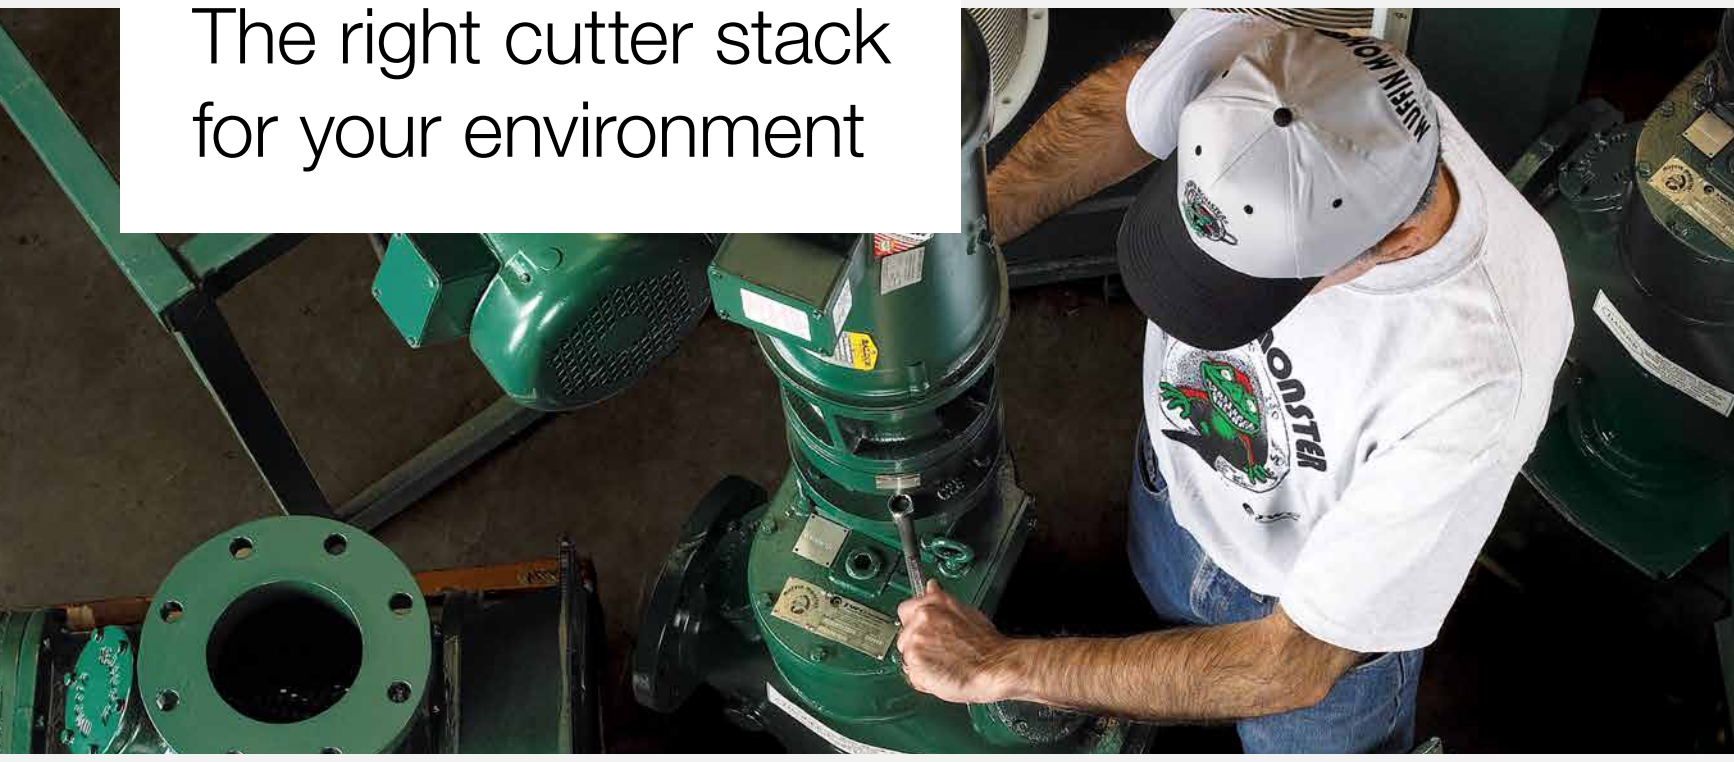
LEADERS IN INNOVATION & SUSTAINABILITY

The right cutter stack for your environment



Are wipes, grit, or corrosion impacting your grinder's performance? Monster Stack™ is the upgrade that can solve your problems.

The Monster Stack is JWC Environmental's fully customizable cutter solution, engineered to match the exact debris profile of your waste stream.

The Monster Stack customizes the cutters across the cutter stack to match the expected debris and environment.

Why Monster Stack works

Bottom of the stream
Extra-thick 7-tooth cutters crush rocks, grit, and heavy solids.

Midstream
Select the ideal cutter for wipes, fine particle size reduction, or general-purpose grinding

Top of the stream
Optimize abrasion resistance, corrosion resistance, or a balanced combination—no need to compromise

Available for

- 30K and 40K Muffin Monster®
- Channel Monster® and Channel Monster® FLEX
- 3-HYDRO and 4-HYDRO

Upgrade today to achieve your grinder's full performance potential. Connect with the ACG Envirocan team at sales@acg-envirocan.ca or (905) 856-1414 to explore how we can support your facility's long-term performance.
